

DOGS RUNNING AT LARGE

January 2012

The office has been receiving a lot of complaints of member's dogs running loose throughout the community. Please be aware that there is a dog rule in effect with the Association.

Section 98 - 50-7 Animals

A. *All animals shall not be permitted to run at-large.* When the animal(s) is off of the owner's property, the animal(s) shall be leashed and under the control of the owner or a responsible person at all times.

Definition: "At-large," shall mean any animal(s) that is loose within the community, not accompanied by the owner or a responsible person. Any incidents shall be dealt with accordingly and the appropriate animal control officer shall be notified.

Note: Animal owners shall be held responsible for any damages caused by their animals.

B. All dogs are required to have current rabies vaccinations, dog licenses and the dog owner's identification attached to the dogs collar.

There is also a **Dog Law** as well. You need to take a picture of the dog and call the Dog Warden. But you will need to know whom the dog belongs to. Then the Dog Warden will take it from there.
